## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6, 7, 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 6, there is no antecedent basis for "the rectifier circuit" [line 2]

With respect to claim 7, "output terminal connected to the output pattern film" is not clear. What output pattern film, the terminal is connected to? "output pattern film of the second secondary winding" OR "output pattern film of the first secondary winding"? Please clarify.

With respect to claim 13, there is no antecedent basis for "the rectifier circuit" [line 2].

### *Allowable Subject Matter*

3. Claims 6-7, 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

4. Claims 1-5, 8-12, 14-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 8 recite, inter alia, *an output pattern film of the second secondary winding is formed on the first inner layer, and an output pattern of the first secondary winding is formed on the second inner layer.*

Art Unit: 2832

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
